

The Monsoon Cup, dubbed as the 'Formula One of Sailing," is a prestigious sailing competition that was formed to unite the world's best match-race regattas. The island's location challenges even experienced sailors with its high-speed winds and severe rain during its early monsoon season. Locals and foreign tourists will find a range of interesting attractions held to coincide with the competition, including displays of Terengganu's splendid arts and heritage.

Admission is free for up to 1,300 visitors per day, so come early to ensure entry.
