

The Seri Menanti Royal Museum is a great place to reminisce Negeri Sembilan's royal heritage under one roof. The palace is located in the royal capital of Seri Menanti, about 15.5 miles east of Seremban. The 4-story timber palace's main attraction is its classic Minangkabau architecture and the traditional techniques of using neither screws nor nails for construction.

***Getting there**: Located in Kuala Pilah, you can get buses and long distance taxis from Seremban town.*
