Bukit Tinggi Resort

Rising impressively atop Pahang's jungle-clad hills is the picturesque and invigorating Bukit Tinggi Resort. This 16,000-acre retreat captures the essence of different cultures of the world in a single destination. The main attraction here is Colmar Tropicale, a French-themed resort town. Higher up at about 3,500 feet above sea level is the Japanese Village. The Botanical Garden is also an interesting discovery, with its collection of colorful temperate flowers and fruits.
