

Once, this hill functioned as a signal station to the ships in Penang Harbor. Now, it is a tourist attraction that offers a panoramic view of the surrounding area. On a clear day, visitors can even see Mount Jerai on mainland Kedah. The train ride up the hill is marked with beautiful scenes of vegetable plots, bungalows, orchards and farmhouses.

Getting there: *Buses leave from Komtar to Ayer Itam. Visitors can purchase a ticket at the bus stations. Alternatively, visitors can trek through a trail from the Botanical Gardens.*
