

Built using rose-tinted granite, this enthralling mosque of Persian architecture has a colossal main dome and a 380-foot high minaret. The 5-tier minaret represents the Five Pillars of Islam and is influenced by a similar one in Baghdad. The mosque can accommodate 15,000 people at a time and is equipped with a VIP room, an auditorium, seminar room, manuscript museum, library and exhibition foyer.

Getting there: Located close to the Jambatan Seri Perdana, the mosque, along with other attractions in Putrajaya, are best discovered through a tour to the city. Tours can be arranged with agents in Kuala Lumpur.
