

When in Sarawak, a visit to a longhouse is highly recommended, which was once the home of notorious pirates and headhunters. There is a longhouse safari available, which begins with a 4-wheel drive to the banks of the Skrang River. From there, the safari continues by motorized longboat down the shallow Skrang River, occasionally "shooting the rapids." A thrilling journey along this scenic river brings you to a series of wooden Iban longhouses.
