

Situated 13 miles off the coast of Terengganu, the Pulau Perhentian Marine Park consists of two islands: the larger Pulau Perhentian Besar and the smaller Pulau Perhentian Kecil. Both islands are surrounded by virgin jungle and palm trees on white sand beaches. The warm blue waters contain colorful coral gardens.

The islands are ideal for relaxation. For the more active visitor, there are facilities for swimming, scuba diving, snorkeling, deep sea fishing, wind-surfing, sailing and canoeing. A journey to this spectacular island takes about one hour by boat from Kuala Besut.
