

There are vast areas of coral reefs -- the table coral formations in the mature coral gardens are a breathtaking sight to behold. There is also colorful marine life and certain areas noted for the large numbers of sea cucumbers on the ocean floor.

Some 50 km off the coast of Kuala Terengganu is Pulau Redang, one of the prettiest islands in Malaysia . Pualau Redang has clear waters with white, sandy shores fringing a heavily forested landmass. Good visibility makes it a great diving site.
